

MANDATORY PACKAGING REPORTING

About Energi Tranz

Energi Tranz helps businesses meet Singapore’s regulatory and environmental goals. We provide comprehensive guidance and support for compliance with the National Environment Agency’s (NEA) Mandatory Packaging Reporting (MPR) requirements, enabling you to transition seamlessly toward sustainable operations.

We are a
Sustainability
Consultancy

Passionate about assisting businesses in minimizing their environmental impact and advance to a greener future

Mandatory Packaging Reporting (MPR)

The National Environment Agency (NEA) initiated the MPR as part of Singapore’s Resource Sustainability Act, with the objective to reduce packaging waste and promote sustainability.

The MPR framework requires businesses, including producers, importers, and retail suppliers, to submit an annual report detailing the types and quantities of packaging they introduce into Singapore. Additionally, these businesses must take steps to reduce waste by adopting a 3R plan focused on Reduce, Reuse, and Recycle principles.

Which Companies in Singapore are impacted by MPR?

This regulation typically affects the following groups:

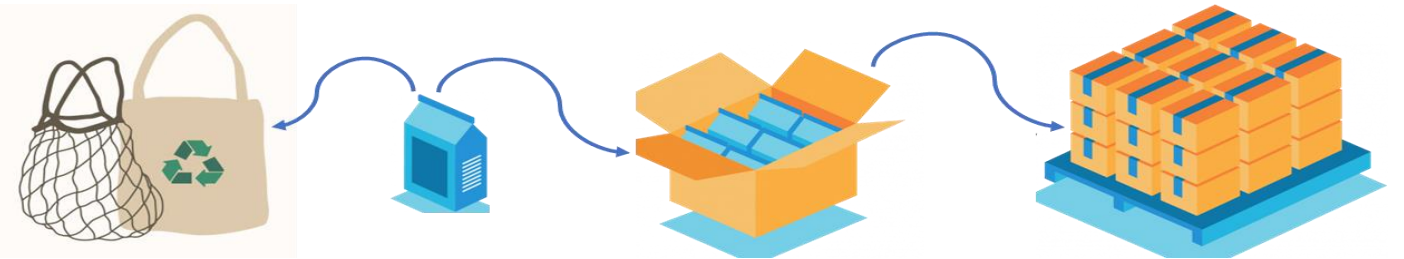

- **Importers** of goods, packaging materials, and packaged products
- **Manufacturers and packers** registered in Singapore
- **Brand owners** with registration in Singapore
- **Retailers** operating within the country

Any business that meets the following criteria:

- Generates a turnover exceeding \$10 million
- Supplies regulated goods in Singapore
- Imports packaged goods or utilizes specified types of packaging

Packaging types to be reported

Service Packaging
Packaging used at point of sales (e.g., bags, trays)

Primary Packaging
Packaging that comes into direct contact with the product (e.g., bottles, cans)

Secondary Packaging
Packaging used to group products together (e.g., cartons, shrink wraps).

Tertiary Packaging
Packaging used for bulk handling or transport (e.g., pallets, crates).

MANDATORY PACKAGING REPORTING

Reporting requirements under MPR

Annual Packaging Data Report			
Company Name:	ABC Pte Ltd		
Reporting Period (CY2024):	1/1/2024	to	31/12/2024
Annual Turnover (CY2023):	\$12,000,000		
Packaging Material	Packaging Form	Further Details	Weight (kg)
Glass	Product packaging (excluding beverage bottle)	Clear	100
Plastic	Beverage bottle	PET	200
Plastic	Transport and protective packaging	LDPE	150

REDUCE

REUSE

RECYCLE

Packaging Data Report

The type and quantity of packaging imported or produced by the business

Methodology Statement

A concise explanation of the data analysis, calculation techniques, and estimation methods employed to derive the packaging data

3R and Waste Reduction Plan

A well-defined strategy, execution plan, KPIs, and supporting evidence to demonstrate progress and achievement of the KPIs

Documentation Needs and Compliance

Keeping of records:

- Supporting evidence on data sources, and methodology for packaging data calculation, measurement and estimation
- Supporting documents that show progress of implementation of 3R plans
- Maintain records for a period of no less than 5 years and should be presented upon request to NEA for audits and verification

Penalty for non-compliance:

- First conviction: Up to \$ 5,000
- More details on NEA website here:

How can Energi Tranz help companies in Singapore

1. Comprehensive Packaging Assessment

- Identify packaging materials and ensure all applicable types are accounted for.

2. Data Collection and Reporting

- Simplify the process of collecting and analysing packaging data.
- Prepare the methodology statement and relevant documentation
- Ensure accurate and timely submissions to NEA.

3. Sustainability Solutions (3R Plan)

- Develop strategies to reduce packaging waste.
- Support initiatives for recycling and reuse to meet compliance goals.

4. Training and Workshops

- Build your team's capacity to manage packaging data and meet MPR requirements.
